

Distributa

Mrs. Lynn Peto

Recorded at Snyder Studios

When will I ever use this?
But when will I use it in Real Life?
Is it lunch time yet?

What's this problem I have
It has pa-ren-the-ses
And a number out front
its driving me ca-razy
Simplify's what it says
Teacher claims it is easy
Gonna quit before I start... Yeah

It's not com-pli-ca-ted
but its sca-ry
the pa-ren-the-ses
can make it hai-ry
A li-ttle mul-ti-ply
can make it better
need my cal-cu-la-tor

Its says to simplify it
Don't even know that means
I gotta try it
move across p'rentheses
Mul-ti-ply now
Pa-ren-the-ses will dis-a-pear
and that's all there is to it... WOW
My mind's in distributa
The number goes into the
Pa-ren-the-ses
It's not that com-pli-ca-ted
Just mul-ti-ply
And combine your like terms
Di-stri-bu-tive
Pro-per-ty

Mul-ti-ply it to sim-pli-fy- it
Mul-ti-ply it to sim-pli-fy- it
Mul-ti-ply it to sim-pli-fy- it
Mul-ti-ply it to sim-pli-fy- it

Simplifying Expressions
Can get real a-ddic-ting
Igniting Math Passions
As I'm di-stri-bu-ting
Mul-ti-ply it out
Can't figure this **** out
Sit next to the smart kid

It's not com-pli-ca-ted
but its sca-ry
the pa-ren-the-ses
can make it hai-ry
A li-ttle mul-ti-ply
can make it better

Mul-ti-ply it to sim-pli-fy- it
Mul-ti-ply it to sim-pli-fy- it
Mul-ti-ply it to sim-pli-fy- it

I can't re-mem-ber what to do
Which number I should
mul-ti-ply through
Gonna cheat, cheat, cheat....
Gotta move my seat, seat, seat,
seat...

Its says to simplify it
Don't even know that means
I gotta try it
move across p'rentheses
Mul-ti-ply now
Pa-ren-the-ses will dis-a-pear
